(*a*) The following steps are taken:—

(1) The Health staff while visiting villages are required to check up the registration of births and deaths in the villages and get unregistered events registered. During the off-season when routine vaccination is suspended, the Health staff is required to do intensive house-to-house investigation regarding births and deaths that occurred and verify their registration. The registers are checked also by touring Revenue Officers.

(2) The Maternity and Child Welfare staff in Poonamallee Health Unit area are provided with printed forms for entering particulars about births that were attended to by them and

sending the particulars to the birth and death registers concerned Steps are being taken to extend this procedure to all municipal and other areas where maternity and child welfare staff are available. Forms for this purpose are proposed to be standardized.

(3) The co-operation of the registered midwives and nurses is sought through the Madras Nurses and Midwives' Council.

(4) The adequacy of birth and death registers is reviewed from time to time.

(5) Intensive propaganda is conducted on the following lines :—

(i) The duties of parents to register births and deaths are made known to them periodically by beat of tom-tom.

(ii) Signboards are put up conspicuously showing the offices of the Registrars of Births and Deaths and indicating hours of registration.

(iii) The Health staff also carry out propaganda on registration of births and deaths during their routine visits to villages.

(*b*) Under section 18 (*b*) of Act III of 1899, the Collector may impose a penalty not exceeding Rs. 25 on any registrar who fails, without sufficient cause, to perform his duties. As a substantial number of birth and death returns were not being submitted in time by the Registrars, instructions were issued to Collectors to take suitable action against the defaulters under the above provision.

(*c*) Number of Registrars who were punished or warned by the respective Collectors during 1948–53 is given in the statement below :—
